YOU DON'T KNOW JACK! is a fast-paced game of words and logic, set in the mundane confines of a small apartment in a small town. The object of the game is simple – to make it through a series of ten questions as long as you can, using all your noggin' to come up with the best possible answer, and without getting yourself and/or your friends stoned. A series of unique and absurd questions, like "What's the best you've ever seen...on a box of...Cheez-Its?" or "If I take a job at a movie theater, will you come to a movie with me?" will challenge your mental prowess to the max! Choose your action quickly, because there are only five chances to answer each question. And what you miss can get you stoned, so choose your next move wisely! Game Modes: 1) 20 Questions - The traditional mode, where you compete against yourself for the top spot 2) 2 Players Tournament - The classic TV show mode, where you and a friend battle it out against each other for the highest score 3) 2 Players Stoner - Play classic YOU DON'T KNOW JACK with your friends and see who can be the most stoned. (Sounds fun, right?) 4) 2 Players Slots - Tons of skulls here! The majority of questions are fun brain twisters, but some are designed to test your deduction skills. Also, you are the Game Warden – no, that is not a flesh-eating hobo that has come down off the interstate. The game is full of Law and Order-ish questions: "Was this man's name...before he adopted the name of a certain cartoon character?" or "What family member drives a car that looks exactly like

the one from The Godfather?" Content: You'll be playing a game of simple wordplay and deduction - very much akin to "Who Wants to be a Millionaire?" – through ten questions. Your score is determined by how many questions you answer correctly, while the overall high score is determined by whoever gets their answers correct first. You have five chances to answer a single question, so being clever is vital to survival! If you miss a single question, the whole game is over and you get stoned. The game is designed to be played fast and furious; you can only answer one question at a time, and c9d1549cdd

The Epic Home has a list of apps you might like. Description In the classical film "The Sixth Sense" M. Night Shyamalan meets insomnia. His subject is the phenomenon of sleep paralysis, a condition where the sleeper is aware of the presence of another person or entity but unable to move.You are Thomas, an ordinary man, who suddenly wakes up with a feeling that someone or something is watching him. You want to find out who or what he is afraid of. You are left with few options to try and make sense of what happened to Thomas.In this game, the strongest weapon is your mind. You can ask questions of the other people and objects that surround Thomas to try and try and decipher what happened to him. However, in order to understand what actually happened, you will need to delve into deep and dark corners of your mind.Making Meaningful Decisions - Some of your decisions have short, medium and long term consequences.Managing Fear and Stress - Thomas can only take a certain amount of stress. You have to make sure you are dealing with his fears and stress in the right way.Solving Puzzles - Some parts of the game require you to solve puzzles in order to progress in the story.Investigating Your Problem - You have to try and find out what is happening to Thomas. You can do this by paying

attention to all the information provided in the game (narration, websites, notes, pictures, video tapes etc.)WARNING: The game may potentially trigger seizures for people with photosensitive epilepsy.
