It has full 3D support including: Creation of 3D drawings of entire buildings, including multi-family housing developments Creation of 2D drawings of 3D objects AutoCAD Architecture 3D comes with a built-in land plot and plan designer for creating multi-family housing plots AutoCAD Architecture 3D provides a number of new features including a new drafting interaction model Automatic generation of typical paper sizes from architectural drawings A new CAD import engine for seamless data transfer between the architectural CAD software and other drawing applications For AutoCAD 2009, A3D includes the new A3D Essentials plug-in for tools such as the GCX Control, paper command, view tool and layout tool. A3D Essentials is free for registered users of AutoCAD 2009. AutoCAD Architecture 3D supports a number of APIs for customization and automation. These include AutoLISP, Visual LISP, .NET and ObjectARX.
